

## Services

### Emerald™ Laser:

#### Treatment Areas

Waist	Thigh	Hips	Arms
Neck	Ankles	Chest	Back

#### What to Expect

Most clients who undergo the Emerald™ process focus on their waist, thighs and hips, but it can also be used on other problem areas such as the arms, neck, ankles, chest and back due to its clearance to treat the overall body.

The treatment is straight forward with no side-effects. Sculpt Body Lounge will have you lie on a table for approx. 30 minutes, while 10 lasers are applied to the target areas of fat simultaneously.

#### Results

Results vary from patient to patient and noticeable results typically occur after 3-4 sessions, by undergoing this treatment as few as 8 times you can see dramatic fat loss results.

For best results it is recommended that laser treatments occur 48-72 hours apart for a minimum of 8 sessions. The laser treatments work best in conjunction with a low-calorie diet.

#### Pricing

Pricing for laser treatments vary based on amount of treatments needed and area being treated.
